

REMARKS/ARGUMENTS

This is a continuation application. The parent application has been allowed. The related applications section of the application has been amended to reflect that the present application is a continuation application. This amendment has also been made to modify the original claims to obtain additional claims to the invention. The claims have been amended so that none of the claims are the same as those found in the allowed parent application. Each of the pending claims is believed to be directed to allowable subject matter.

In the event that the Examiner feels that a terminal disclaimer is necessary to place the present application in condition for allowance, the Examiner is invited to call the applicant so that a terminal disclaimer can be promptly filed.

Respectfully submitted,

October 23, 2003

Michael P. Straub
